

Chief Anderson &
Ms. Kelli Freeman

6/2014

With warmest thanks,
grateful hearts,
and deep appreciation
for your
thoughtfulness.

Again, I just wanted to express my appreciation for the time you took to come and educate my class. Your information was well presented & proved to be of great benefit to the students. As I have discussions with my class; they continue to refer to information you shared with them.

Next year, I will be teaching six classes of health. I will have three classes each semester. It is my desire that we can continue to pass along this important knowledge for those students as well.

Thanks again officer Anderson & Ms. Freeman for all your support. It is of great value to our community.

Matt Beck
