Chief Hollander:

I just wish to thank you for suggesting a fire extinguisher training class for Semiahmoo residents.

The class was held yesterday at the Semiahmoo Parkway Fire Station and given by Training Captain Kris Jorgensen to eight attendees.

I also wish to thank and commend Kris Jorgensen. He did an excellent and instructive job of showing each of us how to use and maintain a fire extinguisher. He answered all our questions and took each of us through the fun part of the class in actually putting out a fire, using the acronym PASS - Pull, Aim, Squeeze and Sweep. My wife - who attended - mentioned that after using the extinguisher she felt totally confident in using it where previously she'd been nervous and totally unsure that she could cope with either an extinguisher or a fire. The class was very important for her and her self-confidence.

Thank you,

Stan
