Question/Comment

I would like to compliment your crew that responded to a call I made to 911 this morning on North Shore Road. They were very professional. Unfortunaty, I made a mistake calling 911 to report scum floating on lake Whatcom. I wrongly thought that I mght be directed to another department or given a phone number and didn't realize the Fire Department would be called. Your crews responded very quickly, and I again made a mistake by not realizing that I should wait around a while to see what might develop.

I apologize for my mistake and I feel comfortable knowing that you are there to help in an emergency.

Thanks,

Jim Molden
