

Re: Incident # 15-3441

NB I-5 at MP276

Gas can had fallen from a vehicle and wedged under another vehicle while they driving on I-5. Gas can was plastic, got a hole in it and was leaking gas.

Kenneth Cunningham and Lt Leslee Smith were on E61 and responded with Blaine PD. Four women were placed into Blaine PD vehicle to keep warm while car was jacked up to give clearance to remove can.

Crew received a gift of food to share with station....case of flavored pretzels and box trail mix bars:-)

A gift for you
