North Whatcom Fire Rescue Commissioners,

I wanted to express our gratitude for first inviting, then hosting the four of us for the 9/11 Memorial. It was a tremendous privilege to share our experiences and to also meet so many quality people. One of the things which make being a First Responder so special is never really being a stranger to another - we may come from opposite sides of the county, but inside we are the same. I can't quite describe how honored we were to be in your company and to experience your hospitality.

On behalf of Brian, Matt, Efrain and myself, thank you again!

A handwritten signature in black ink, appearing to read 'Kevin Lynch', with a large, sweeping flourish at the end.
